# THE HISTORY OF ELITE WHEELS

# AF BUILD PROCESS

STEP 1: PROFILE SELECTION

STEP 2: CNC MACHINING

STEP 3: PREP FOR FINISHING

All of our Amani Forged Wheels are custom built wheels starting off as a solid forged piece of aluminum that is then trimmed down to a useable profile. The profile is then CNC machined with one our signature Amani Forged styles. The wheels are then inspected before they are sent to finishing. In the finishing stage the wheels are sanded down so that the surface is clean and smooth. The faces are then either brushed, polished, or painted and then off to be assembled. Since Amani Forged wheels are custom built, each set of wheels gets its own specific set of lips and barrels according to the size and the vehicle that the wheels are going on. Once assembled, the wheels go through a final inspection before heading out to the customer.

STEP 4: SANDING / BRUSHING / POLISHING

STEP 5: CLEAR COAT

STEP 6: ASSEMBLY

## CUSTOM FORGED WHEELS

Sizes from: 18" to 32"

EST. 2012

[WWW.AMANIFORGED.COM](http://WWW.AMANIFORGED.COM)

### FORGED SERIES

- STANDARD / FLAT PROFILE
- 18" - 32"

### FORGED SERIES

The forged series is the original series created by Amani Forged and is where 95% of our designs come from for our additional options that we offer our Amani Forged wheels in such as the Concave Series and Off-Road Series. The Forged series utilizes a convex shape to its forged face and is available in 2 & 3 piece configurations, with sizes from 18" - 32".

### CONCAVE SERIES

- CONCAVE FACE WHEELS
- 20" - 26"

### CONCAVE SERIES

The Concave series offers styles designed and engineered with a concave wheel in mind. These designs are ones that shine best in a concave profile. Concave wheels allow for better brake clearance but usually come at the cost of going with a smaller lip size but adds a luxury look to any vehicle.

### AXL SERIES

- CONCAVE EXTENDED LEG
- 20" - 26"

### AXL SERIES

The AXL Series is a new style launched by Amani Forged that is all about concave wheels with luxury applications. Our AXL wheels feature a face that extends to the edge of the lip. This option gives the look of a concave monoblock wheel in the form of a 2 or 3 piece wheel. AXL wheels are commonly fitted on Bentleys, Rolls Royces, Mercedes and many more vehicle.

### OFF-ROAD SERIES

- FORGED MONOBLOCKS
- 20x12" - 30x16"

### OFF-ROAD SERIES

Amani Forged launched its off-road program at the end of 2018 with 30+ designs and sizes from 20x12 to 30x16 Forged Monoblock Off-Road wheels. Our off-road wheels are CNC machined out of a solid forging made in the United States. Custom finishes are available with all of our off-road wheels and are sized to fit your vehicle perfect.

CALIFORNIA MACHINING

Elite California Machining is the home of where all of our custom Amani Forged and Modern Concept wheels are lathed, machined, and brought to life. Elite California Machining has recently just moved into a brand new, larger facility in the beginning of 2021, in order to expand production due to increased demand and volume. We now have over 15 CNC machines that are working around the clock to push out your custom wheel orders.

**SPEC-1**  
RACING WHEELS

✓ SPEC-1 WHEELS IS OUR FIRST CAST WHEEL LINE THAT WE CREATED AT ELITE WHEELS TO ATTACK THE TUNER AND STANCE MARKET. SPEC-1 WHEELS WAS ESTABLISHED IN 2014 AND HAS SINCE GROWN INTO THE BRAND IT IS TODAY. SPEC-1 OFFERS MANY DIFFERENT STYLES OF WHEELS RANGING FROM 15" TO 24" IN DIAMETER.

The logo features a stylized 'XF' in a bold, italicized font, followed by the words 'OFF-ROAD' in a clean, sans-serif typeface. The entire logo is set against a dark, semi-transparent background that allows the underlying wheel design to be visible.

**XF OFF-ROAD**

The logo consists of a stylized 'XF' symbol followed by the words 'FLOW FORGED' in a bold, sans-serif font. The text is white and stands out against the dark background of the advertisement.

**XF FLOW FORGED**

## New Line!

XF Flow-Forged is the first off-road wheel line to offer floating center caps as a standard with our Flow-Forged line. The floating cap is a weighted custom cap that allows the logo to remain parallel with the ground while the wheel is spinning!

# AZARA WHEELS

WWW.AZARAWHEELS.COM

## URBAN LEGENDS

Azara Wheels specializes in large diameter cast wheels from 18" to 32" wheels in a variety of different designs and finishes. Azara Wheels was founded in 2017 and has since been one of our most highly demanded lines that Elite Wheels offers.

Azara Wheels has some of the most unique wheel designs on the market today, and one of the only wheel manufacturers to offer up to 32" wheels in a cast wheel construction, providing the customer with the size wheels they want at a much more affordable price than a fully forged wheel.
